Nutrimetics transformed my life!

NORYATI MOKHTAR
Senior Director

"For many years, I had to endure with just a few hours of sleep daily, as I had to work hard to supplement the family income. But I am happier these days because I have found a better way of earning a living.

I have been a trader for at least eight years, selling perishable goods like fish at the pasar malam. And for the past four years, I have been running a retail shop, selling household goods like kitchen ware, shoes and other stuff in BERTAM.

The traditional way of making a living is too rigid, and too time-consuming, taking away any opportunity for me to find rest. The Nutrimetics business that I have been doing for the past three years allows me the flexibility to juggle with my daily schedule, and I find I have more time for myself, and also for my children.

When I was selling fish, I woke up at 6am in the morning to prepare breakfast and attend to other household chores. At 2pm in the afternoon I had to travel to Tanjung Dawai to get my supply of fish. Then I have to prepare and get them packed for the pasar malam at 6pm. By the time I returned home, it would almost be twelve midnight. And then, at 2am in the morning, I have to wake up again to get another supply of fish for the morning market.

And what's best is the Nutrimetics business gives me more earning power. I don't have to incur expenses on rental and other things. Comparatively, I earn more with Nutrimetics in one year than I did in my trading and retailing business.

Nutrimetics has enlightened me in ways like never before. Before Nutrimetics, I only knew how to sell. Now, I've learnt the power of relationship selling and network marketing. It's not only selling, but making friends and impacting others with the opportunity for change.

I find the Nutrimetics business both fulfilling and educating. I have learnt so much about personal well-being, grooming, skin nutrition and opportunity.

Nutrimetics has empowered me with the tools and the means improve my lifestyle, particularly in the area of personal wellness and financial stability. Not only that, as at the same time it has also empowered me to empower others to do the same.

I have been doing this business for three years now. The sky is the limit in NUTRIMETICS. How much I earn will depend on me. The harder I work, the more I will earn. My desire is to go as far as I can go. I love to see places. With Nutrimetics, I can now work towards earning free international holidays every year. Given the right opportunity, everyone who has the heart, can find success in the Nutrimetics business"

TUPPERWARE BRANDS CORPORATION

Responds to Haiti Earthquake

The earthquake measuring 7.0 on the Richter scale which struck impoverished Haiti's capital of Port-au-Prince left much of the city in ruins, a death toll rising daily and between 500,000 and 700,000 people displaced.

Tupperware Brands is committed to the long-term recovery of the people of Haiti and will partner with the

International Save the Children Alliance, a global network of 29 organisations dedicated to the protection of children. Save the Children USA is the lead for recovery efforts in Haiti and will use our donations to support women and their families.

As part of Tupperware Brand's Global Social Responsibility initiatives, all operations worldwide, including Nutrimerics Malaysia, are joining forces to raise funds for the victims of Haiti earthquake.

We appeal to you to donate to this charitable cause.
